IT'S TIME TO TAKE YOUR TOP OFF!

March, April, May and June are some of the most beautiful months Chicago has to offer. Make sure you are ready for them by getting your soft top installed. Call us to schedule your appointment to remove the hard top and get your car ready for the warm weather.

Many customers make appointments to meet with us at our warehouse. Our spring hours are Monday-Friday 8:30am-5:00pm and Saturday 8:00am-Noon. With a little notice we can install your hard top while you wait.

This spring, once again, we will be making our trailer runs on Tuesday through Friday of every week. The schedule to the left shows when we will be in your neighborhood. Make your appointment early as trailer days tend to fill up quickly. We will also be offering local Chicago residents the ability to have their car picked up and delivered.

We thank you for your understanding and hope you have a wonderful year driving!

Enjoy the Spring!

TOP STORE OFFERS VEHICLE SERVICE

Trying to get your vehicle serviced can be one of the most daunting tasks that you will ever undertake. Often times simply trying to speak to the same person is a task in itself.

At Top Store, you will always speak to someone you know, and moreover, someone who knows you and your vehicle. We take great pride in providing clients with a good knowledge

base and understanding of their vehicles needs. While repairing cars can sometimes be a difficult task, learning and knowing what is happening with your car while in our care shouldn't be.

The next time your car needs service, give us a call and see the difference. Appointments are appreciated but never mandatory. We look forward to working with each of you.

THE ÜBER DETAIL

Ask our current detail customers and they will tell you that the Über Detail is the best detail in the Chicago area. Most detail shops will spend 2-3 hours on your vehicle. At Top Store we spend 2-3 hours on the interior alone. We vacuum, shampoo and remove even the

toughest stains. While the interior is drying, we move to the outside of the vehicle where a multi-stage refinishing occurs. Buffing, polishing, and applying wax are just a few of the exterior steps taken to restore your vehicle to it's original beauty. With touch-up paint as

the final step, you are ready to go. We offer pick-up and delivery of your detailed vehicle. Dent work, air brushing and odor removal may also be completed with your Über Detail. Pick-up and delivery is available for a small fee. By appointment, please.

WE CAN MAKE YOUR JEEP EVEN BETTER

Your Jeep comes from the factory ready for almost anything. It handles well in the snow and has a convertible top for the warm summer months. It's the best of both worlds.

At Top Store, we have spent the last 11 years customizing and improving the way your Jeep looks, drives and feels on the road.

If you are interested in a purely cosmetic approach, there are a number of appearance upgrades that can be made. Custom fenders,

tube bumpers, grill & light guards and trim pieces are just the beginning.

Jeep Customization at Top Store

For those looking to get a little more power and performance we can install

cold air intakes, cat-back exhaust systems and of course the ultimate Jeep accessory, the lift kit.

We specialize in both body and suspension lift kits and only sell and install the highest quality lift kits on the market.

Many of these upgrades can be done in stages, so you can get what you want and what you can afford at the same time.

Call us today to ask us about customizing your Jeep.

AUTO STORAGE FOR ALL SEASONS

With the rising cost of parking spots and monthly parking rates hitting well over \$300/month, people are looking for an alternative way to store their car for the winter months.

Every year Top Store stores more than 100 cars in our climate controlled, secure

warehouse space. We specialize in storing high end vehicles as well as classic autos. We also store everyday drivers.

Each car is started every week and the battery/charging system is monitored and a battery charger is applied if necessary. All cars

are covered with car covers and every car is moved once a month to prevent flat spots from forming on the tires.

Our rate for small - medium cars is \$150/month. Large cars and SUV's are \$175/month. Many of our customers use us as a parking garage swapping a car back and forth as they need it. Call us for more information.

PARTS & ACCESSORIES FOR SALE

Throughout the years while we have stored hard tops, tires and performed service we have come across the vast need for affordable parts and accessories.

In our warehouse we routinely have hard tops, tire and wheel sets, and a vast array of various used and

new parts to install on your vehicle. From replacing your soft top, to putting on new sets of tires, we are capable of handling all of your after-market and OEM parts needs. All of our parts are guaranteed and come with the high level of service you have come to expect from us.
